ShopEase

Sample Return, Refund & Exchange Policy

IMPORTANT: ShopEase is a fictional shopping app created for software testing and RAG chatbot practice. This sample policy is not the policy of a real company and is not legal advice.

1. Return window

• Customers may request a return within **7 calendar days** after delivery for eligible products.

• The return window begins on the date the order is marked as delivered in the ShopEase app.

• Some product categories may have different conditions. The product page and order details should be checked before starting a return.

2. Return eligibility

• The product should be unused, undamaged, and returned with its original packaging, tags, accessories, manuals, and any included gifts.

• A return may be approved if the product is defective, damaged during delivery, incorrect, or significantly different from its description.

• ShopEase may request photographs or other details to assess a damaged, defective, or incorrect item.

3. Items that cannot normally be returned

• Personalised or custom-made products, perishable goods, digital downloads, and products marked “non-returnable” are normally not eligible for change-of-mind returns.

• For hygiene reasons, opened personal-care items and certain sealed products may not be returnable unless they arrived damaged, defective, or incorrect.

• If a product page states a category-specific rule, that rule applies to the order, subject to applicable consumer rights.

4. How to request a return

• 1. Open the ShopEase app and go to **My Orders**.

• 2. Select the order and product you want to return.

• 3. Choose **Return or Replace** and select the reason.

• 4. Add a short description and photos if requested, then submit the request.

• 5. ShopEase will show the request status in the order details and provide pickup or shipping instructions if the return is approved.

5. Pickup and return shipping

• For products that arrive damaged, defective, or incorrect, ShopEase will arrange return pickup or provide return instructions without charging a return-shipping fee.

• For eligible change-of-mind returns, a return-shipping fee may apply if shown before the customer confirms the request.

• Customers should keep the pickup receipt or shipping tracking number until the return is completed.

6. Refund processing

• After the returned product is received and inspected, ShopEase aims to approve or reject the return within **3 business days**.

• Once approved, the refund is initiated within **5 business days**.

• The bank, card issuer, UPI provider, or payment service may need additional time to show the refund in the customer's account.

7. Refund method

• For prepaid orders, refunds are normally sent to the original payment method.

• For cash-on-delivery orders, customers may be asked to provide eligible bank or UPI details through the app's secure refund process, or may be offered ShopEase wallet credit where available.

• Customers should never share their password, OTP, or full payment credentials with customer support.

8. Replacement and exchange

• If an item is defective, damaged, or incorrect, the customer may be offered a replacement, exchange, or refund depending on stock availability and the product's return rules.

• A replacement is subject to availability. If a suitable replacement cannot be provided, an eligible refund may be issued.

9. Cancellation

• An order may be cancelled from **My Orders** while its status is still eligible for cancellation.

• Once an order has shipped, cancellation may no longer be available; the customer can check whether a return is allowed after delivery.

• If a prepaid order is successfully cancelled, the refund is initiated to the original payment method.

10. Contact and support

• For help with a return, open the order in the ShopEase app and select **Help with this order**.

• Include the order number, product name, and a clear explanation of the issue. Do not include passwords, OTPs, or full card details in support messages.

Example questions for testing a customer-support RAG chatbot: *How many days do I have to return an item? What should I do if my product arrived damaged? How long does a refund take? Are personalised products returnable? How do I start a return?*
